Writing Assignment #5 (due on Tuesday, October 28)

Write a 2-3 page Jungian analysis of Herakles or *any other* figure we have encountered so far in this course. I have posted two brief readings on Moodle to help you with the Jung material. One is required and called (fittingly, I think) "How to Perform a Jungian Analysis of a Myth or Fairy Tale"; the other is optional and called "Man and His Symbols".

This is an exercise in trying out a theoretical model on a particular primary source(s). Thus it should be your own experiment--there is no need to do any research beyond the two readings I am providing and your chosen primary source(s).
