Course: _____ When: _____ Grade Received: _____

Course: _____ When: _____ Grade Received: _____

Please indicate if any of the following reasons for taking Math 27 apply to you (please check *all* that apply).

- I'm thinking about a math major.
- I'm not planning a math major, but 27 is required for my planned major.
- I'm not planning a math major; 27 is recommended but not required for my major.
- I believe you can never learn too much math.
- (Other – please specify) _____

Please review the statements below and check all that apply to you. Feel free to elaborate on the back of this page.

- I prefer to do math homework with friends or study partners.
- I prefer to figure out math by myself.
- I prefer math questions that require techniques leading to numerical answers.
- I prefer math questions that ask me to explain my reasoning or prove something.
- I'm used to getting lots of help with math.
- It's sometimes hard for me to ask for help in math.
